HOMESTEAD ASSOCIATION

THE LANDS OF THE ABOVE NAMED ASSOCIAtion are situated in San Francisco and are eligibly and most desirably located, adjoining the grounds purchased by the Presbyterian University Society, on which College buildings are to be at once erected. The site is less than thirty minutes ride from Montgomery street; lying just west or back of the lands of the South San Francisco Homestead and Railroad Association and the Bay View Park, almost within a stone's throw of

ST. MARY'S COLLEGE.

The tract will require little or no grading, there being scarcely a single lot on which it would not be safe to build without any change of grade It commands a

Beautiful View of the Bay,

And its opposite shore, and has a soil of extreme richness. So great are the natural attractions of the spot that very many of the wealthy citizens of San Francisco have already purchased whole blocks in the same tract, and design building residences thereon

The Rev. E. Thomas, D. D.,

Is President of the Association; Lester L. Robinson, formerly Vice President of the Sacramento Railroad Company, is the Treasurer, and Thomas H. Lewis, formerly of Portland, Secretary.

Four lots, 25x120 feet each, constitute a share, costing $316—paid in monthly installments of $10 each, after the first payment of $10 has been made

[DISPATCHES TO THE OREGONIAN.]

DATES TO APRIL 20.

Congressional.

WASHINGTON, April 20.—In the Senate Sumner offered a resolution tendering the offices of the United States to Mexico, to aid in the establishment of a republican government

Henderson offered a substitute, declaring that Maximilian should have humane treatment. Both were laid on the table

Cole, of California, offered a resolution providing for American mediation between France and Prussia, on the Luxemburg question. Laid over.

The Senate confirmed Moses Veille as District Attorney for Montana, and M. F. Moore for Governor of Washington Territory

Adjourned *sine die.*

Washington News.

WASHINGTON, April 17.—The resolution offered in the Senate in favor of mediation in Mexico caused debate. A substitute was offered to the effect that the Mexican people are able to expel the foreign invader, and, consequently, mediation is unnecessary. The majority favoring the substitute, the resolution was withdrawn.

The Commissioner of the Land Office is collecting materials for a large map of Russian America

The new President of Nicaragua has appointed his predecessor, Martinez, Minister to England. It is understood that the mission has reference to the settlement of claims against the United States, for damage done by Walker and the Greytown bombardment, also to foster emigration from England, France and Germany, and to negotiate a loan

The Washington correspondent of the Boston *Post* is authoritatively informed that negotiations have been pending since the accession of the Derby administration between the State department and the Colonial Secretary for the purchase of a large portion of British America. Seward's design was to acquire all the territory west of the Mississippi. One prominent difficulty was the transfer of Vancouver Island. England desired to retain that as a naval station. Recently, the proposition to purchase has been renewed. Seward put forth the *Alabama* claims as a partial offset, the whole price to be determined hereafter. The strictest secrecy has been maintained respecting the negotiations. Seward relied upon the success of the scheme for buying Russian America to help the other bargain.

WASHINGTON, April 20.—The President has nominated Wm Harrison as Surveyor of Customs, and Barrett O Baxter as Naval Officer of Philadelphia, and Green Adams as Internal Revenue Collector for the Fourth District of Pennsylvania.

The *World's* special dispatch says that the counsels engaged in the injunction cases have held a consultation and agreed that O Conor shall address the Court for both Georgia and Mississippi. The arguments will be heard on the 20th December. It is expected that a decision will given on Monday, April 20th

The *Herald's* special says that official information from Havana denies the report that enlistments for Maximilian are in progress. The Captain-General will hold to a strict accountability all parties attempting to recruit for that service

NEW YORK, April 20.—A special despatch from Washington says that it is understood that the President will withdraw the nomination of Raymond on the adjournment of the Senate and immediately make another appointment.

General Le Favre, of Ohio, was yesterday nominated for Governor of Washington Territory and rejected

WASHINGTON, April 21.—The Senate yesterday had dwindled to less than a quorum, and adjourned without filling all vacancies, which with two exceptions are in the West. There are nine offices without postmasters in Illinois, one in Pennsylvania and four or five vacancies in the Internal Revenue offices in Indiana, Illinois and Wisconsin. No nomination for Consul at Panama was confirmed, and under the tenure of office act vacancies cannot be filled by the President during the recess of Congress.

Cummings having been confirmed Collector of Internal Revenue for the Fifth District of Pennsylvania, leaves the Governorship of Colorado vacant.

The following resolution was offered on Saturday evening by Johnson, of Maryland, and laid on the table:

"WHEREAS, The United States refused in any way to acknowledge the Imperial Government of which Maximilian was head, but continued to recognize the Republican as the only legitimate Government of Mexico, it is the opinion of the Senate that the United States should adopt every measure to avoid the unnecessary effusion of blood and restore peace to Mexico; that the President be requested to offer to the contending parties the friendly mediation of the United States to bring the civil war to a termination on terms honorable to both, and to secure to Maximilian and all foreigners the benefit of the rule of civilized warfare, it being understood, however, that such mediation is to be made with the understanding that Maximilian shall abdicate, and with the foreign troops, leave the country."

The resolution offered by Johnson, of Maryland, is the same as one offered in Executive session on April 16th

The *Chronicle*, of to-day, says that when the Senate adjourned last night, the impression seemed to be almost unanimous that there would not be a quorum in either house on the 3d of July. The feeling between Senators and the President is comparatively cordial, and intelligence from the South promises submission to the reconstruction act.

WASHINGTON, April 22.—Ford's theater is now open as Head-quarters of Surgeon-General Barnes.

Rich specimens of copper ore from the Nacramento copper mines of New Mexico have been received

Among the confirmations yesterday were Benjamin Lefevre as Consul at Nuremberg, and C. H. Whalley as agent for the Pawnee Indian disbursements.

WASHINGTON, April 22.—The Surgeon General has ordered the medical officers to take precautions against the cholera among the troops

WASHINGTON, April 23.—A light house district has been established, with headquarters at Astoria, Oregon The commander is inspector

The *World's* special says The members of the Senate Committee on Foreign Affairs have inquired diligently and find that it is untrue, as reported, about negotiations for the purchase of a portion of British America.

NEW YORK, April 23.—The *Tribune's* special says that after a careful examination he finds the offices that are remaining vacant are the Naval Officer at New York, the Consul-General at Havana, one Internal Revenue Assessor and two post-offices in Pennsylvania, eight post-offices in Illinois and three in Wisconsin, one Internal Revenue and two post-offices in Missouri and Tennessee.

Kilby Smith, who was nominated as Consul at Havana, on Saturday, was tabled. Deputy Collector Franklin continues to act as Naval Officer at New York. General Robertson was confirmed as Post-master at Brooklyn. It is believed the President will appoint the Minister to Austria soon. It is suggested that Rosecrans will not resign

Southern News.

A dispatch from New Orleans says another crevasse occurred on Friday at West Baton Rouge. The damage is not yet known. A large part of Louisiana is now overflowed and there is much suffering.

Louisville, Ky., is troubled with rabid dogs. A general slaughter of the animals has commenced

FORTRESS MONROE, April 22.—Fifty negroes have been sent to Boston by the Freedmen's Bureau as servants There is considerable negro emigration to the north from the Peninsula

Bishop Spaulding, of Baltimore, is out of danger.

The *North America* has sailed for Rio Janeiro, taking about 200 Southern emigrants.

A Georgia correspondent of the *Express* says 6,000 persons are destitute there

RICHMOND, April 23.—Senator Wilson addressed 6,000 persons to-night.

AUGUSTA, Ga., April 23.—An altercation took place at the race course to-day, resulting in the shooting of two participants

RICHMOND, April 23.—A negro has been arrested for creating a disturbance by entering the horse cars There is considerable excitement.

NEW YORK, April 23.—The *Herald's* special dispatch says Paul Bagley, formerly a Missionary to India, visited Jefferson Davis to induce him to make application for pardon, which would be supported by an influential petition Davis refused, as it would prejudice his case, and the trial would soon take place. Bagley afterwards had an interview with the President and inquired if a pardon would be granted on application without the application of Davis. The President acquiesced

NEW YORK, April 25.—The old Board of Directors of the Jackson and New Orleans Railroad, with Beauregard as President, are re-elected by throwing in the representation the stock of the city and State which could, if represented, have insured a Union Board. The matter is to be presented to Gen. Grant, with a petition for a new election

It is claimed by parties in the South that the clause in the Reconstruction bill disqualifying State officers extends to parish and county officers. Sheridan asks for a true construction of the law. The State Attorney-General is preparing an opinion to be presented to General Grant asking him to authorize General Sheridan to remove Col. Adams, Chief of New Orleans Police, who was one of the instigators of the mobs.

General Ord has arrived at Little Rock and represents that political affairs in Arkansas are hopeful

The Pacific Mail Co.'s steamship *Constitution*, leaving New York on the 1st of April, arrived here early this morning

A close examination of the Cosmopolitan Hotel to-day, shows the damage to be somewhat less than was supposed yesterday The fire was confined almost entirely to the fifth story or French roof This is completely swept away, nothing being left of it but the heavy shroud of tin which hangs like funeral palls about the edges of the walls The floor is not destroyed, but the timbers are considerably charred and burned The fourth story, immediately beneath, is considerably damaged in a number of places, in fact so much so, that the entire interior portion of the upper building from the fourth floor up will have to be completely rebuilt Below this point the only damage is by water and breakage. Several of the doors are broken and quite a number of windows are smashed, while a great deal of ornamental stucco work about the walls and ceilings has been loosened from its fastenings and is ruined Five powerful steam engines were kept constantly at work and proved the superiority of steam over muscular power The damage done to the building alone and the cost of placing it in the same condition that it was in before, will not exceed $100,000

FRIDAY MORNING APRIL 26 1867

A Southern Paper Tells a Little Plain Truth.

The editor of the Richmond *Enquirer* is a person who knows how to profit, in some degree at least by experience That paper therefore tells the New York *World* that it very clearly understands the secret motive which prompts the Northern Democracy to clamor so incessantly for the immediate restoration of the Southern States to their former relations with the Government. It knows perfectly well that this solicitude proceeds mainly from interested motives and does not hesitate to say so. "Through whatever abasements and renunciations," says the *Enquirer* sarcastically, "of rights and liberties, we must win the inestimable felicity of gaining a voice and vote in the next Presidential election, for the chance that our vote if given to order, may put the *World* and its associates in office" This is aptly and cleverly put It describes the situation exactly The same paper continues

> Until the Northern Democrats show more strength and more nerve, the Southern vote if given in bulk, would avail them but little; and if so, given would probably draw down upon us fresh proscriptions from the successful party, with fresh confidence from the *World*, and fresh counsel to make the best of our case by making some new venture for the Democrats We must tell the *World* plainly that its abandonment of the constitutional questions involved in the impending legislation, and its leaving the South to make her defences under the Constitution, unaided and with careful admonition that it is *her* case exclusively, are to our conceptions treacherous to us, and treacherous to principle; and can but be received as a warning not to expect future fidelity, and as counsel to take care of ourselves the best we may, regardless of past associations or commitments. This is the logic of the *World's* example.

A Kentucky paper complains that the President does not pardon "Gen" Breckinridge. It says that "he is ready, if permitted to come back, to take the oath of allegiance to the Union, and no man who knows him, or knows anything about him, doubts that his oath would be kept inviolate Unless we forget, the country has already had some experience with Breckinridge, and with his mode of keeping oaths inviolate He was a Senator of the United States, and as such had taken an oath of allegiance to the Union, yet he quitted his seat and went into the rebel army to fight against the Union he had sworn to defend With those who remember this there may reasonably be some doubts about his wonderful reverence for the sanctity of an oath He is one of those Democrats whose principles have become pretty well known.

The "National Temperance and Publication Society" is the name taken by an association which has been organized at the East with its head quarters in New York City, designed to check, and in some measure to remedy the evil of intemperance. The publishing department is in vigorous operation, and has already sent out vast quantities of printed matter in aid of the cause. Earnest men are at the head of the movement, and many wealthy persons have contributed largely to the permanent fund of the Society. A general effort in the temperance cause is making in nearly all parts of the country, with a large promise of good results. Temperance reform is said to be taking a deep hold at Washington, for which there should be general gratulation. If we need sober, reliable men anywhere, it is in Congress and at the Capital.

Here are some of the "organ's" "incontrovertible legal propositions." States cannot be punished for the part they took in the rebellion, because the unlawful acts, if any, were committed by individuals. Individuals cannot be punished for the part they took in the conflict, because they acted under the orders of their States —These are the "fundamental principles" from whose basis the "organ" boasts that it argues. Such reasoning shows the marvellous capabilities of the human intellect. To reason in a circle of such infinitesimal proportions, is no ordinary achievement.

The Copperheads of Washington Territory have declared in favor of electing "who love and are determined to preserve the American Constitution and the American Union." This is "going back on" the record that declared the "war a failure." If, when the Union was in peril, they had resolved that it should be preserved, instead of resolving against the use of measures for its preservation, the proceeding would have been pertinent and timely, as well as much more creditable.

The New York *Herald* proposes as a ticket for 1868, the following For President, U S Grant, for Vice-President, R E. Lee As it is not likely that Gen. Grant courts assassination, it will probably be very difficult to make him a party to this ticket.

FROM NORTH IDAHO.

The following is from the Lewiston *Journal* of the 19th inst.

FROM PEND OREILLE

Mr. Hammond arrived direct from Pen d'Oreille Lake on Wednesday He came through from California Ranch, a distance of 95 miles on foot in two days. He left Bear Gulch in Montana about six weeks ago. Between Cabinet and Flathead river he met about 300 miners en route for Montana. The snow on some portions of this route was from two to four feet deep About 150 miners were at the mouth of the Jocko, awaiting an opportunity to go to the Thompson diggings

Mr Hammond was unable to learn the precise locality of the new diggings; but says that he understood them to be on the Thompson river or a creek near the head waters of that stream

The boats were running on the Lakes, and he reports no snow between this place and the Lakes. The waters are high and difficult of crossing. Several pack trains he met this side of the Lakes and many foot-men. Mr Hammond says that the Lemhi mines are generally regarded as good, among the miners of Bear Gulch, that much emigration had gone to them this spring from Montana. He thought that not less than four thousand persons must be at Lemhi at present, judging from the number who had gone from Montana.

FROM ELK CITY.

Fairchild arrived yesterday with express from Elk City, having left that camp on Monday The snow had settled down to two feet in the camp. The water ditches have been put in order and the water was turned into them on Monday Several companies were to commence with hydraulics this week On Newsome creek work was to be resumed this week, also at Clearwater Station The snow had almost entirely disappeared at Silverwood's station Somewhere from thirty to fifty miners had gone to Elk City this spring, and Fairchild met several other white men and about seventy five Chinamen *en route* for that place. About two feet of snow on Craig's mountain yet The trail was broke through and he came over with three horses The Warren's and Florence men were getting along well with their animals when he met them

STATE ITEMS.

The Trustees of Pacific University will hold their regular meeting at Forest Grove on the 7th of May for the transaction of business pertaining to that institution

Prof J W Marsh brother of President Marsh of Pacific University, arrived from the East by the steamer *Idaho* yesterday He goes to Forest Grove to take a Professorship His family is stopping for the present at San Fancisco, but will come on in a few weeks President Marsh who has been East for about a year, will leave New York for Oregon about the 1st of May

Returns from Oregon published in the report of the Agricultural Department for February, show the following statistics of the average yield per acre in 1866, of the principal farm products Wheat per acre 25 bushels; Rye, 30 bushels; barley, 37 bushels; oats 42 bushels; corn, 35 bushels; potatoes 150 bushels; hay 1¾ tons These returns we should judge to be a nearly correct estimate of the yield under the present system of farming But under an improved system we can do very much better With the same care here to ensure good crops that is exercised in the Eastern States we should have a much greater yield than at present

BAKER —The S F *Flag* pays the following tribute to the late lamented Senator Baker

> Upon the silent heights of Lone Mountain there lies one of Freedom's most illustrious heroes, who was in himself Cicero and Cæsar, Aristides and Leonidas, and who fell in a Pass no less heroic than that of Thermopylæ While the eternal anthem of the Ocean sounds his requiem and the Genius of Liberty stoops over him like a mournful Niobe, his bugle call is still ringing in the mountains of the West, from the sweet singing cataracts of the Yo-Semite to the quiet plains of Columbia, the cold and solitary Shasta answering to Hood of the fiery crown and smoking nostrils "Years, years ago, I took my stand by Freedom, and where the feet of my youth were planted, there my manhood and my age shall march"

The steamer *Great Republic*, which is receiving the finishing touches at Pittsburg, is said to be the largest boat ever constructed on the Western waters Her dimensions are Length of keel 335 feet, on deck, 352 feet, breadth of beam, 51 feet, over all, 97 feet, depth of hold, 9 feet clear She is designed for the St. Louis and New Orleans trade.

SOMETHING NEW IN DENTAL SURGERY —Extracting teeth by Dr Richardson's apparatus, with Ether Spray, is local in its application, the teeth and surrounding parts only becoming insensible to pain. Those suffering from bad teeth can now have them removed free from pain and without the effects of inhaling chloroform, ether or nitrous oxide (laughing gas)

N B —To strangers I would say, that a constantly increasing Dental Practice for the last 5 years in this city, will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work Numerous testimonials to the same can be given at the Office

Dental Consultation and Advice Free of Charge to all, mch7dtf

REMOVED.—We are pleased to inform the public that KOHN & FISHEL, of the St. Louis Store, have removed to the handsome ware room recently occupied by Weil Bros , where they shall be glad to see their old customers and those of Weil Bros Kohn & Fishel have bought an immense stock of clothing and dry goods at extremely low prices therefore are enabled to sell everything in their line 25 per cent. less than they can be purchased elsewhere It certainly must be a pleasure to a person to know that he can buy of Kohn & Fishel such handsome suits as they sell for $25, and think even if times are dull we can enjoy life The public will please keep in mind that at KOHN & FISHEL'S, No 91 Front street, is the place to purchase all kinds of clothing, gents' furnishing goods, dry goods and everything in that line.

PERFECTLY SATISFIED.—Every one that visits BUCHTEL'S PHOTOGRAPH GALLERY, comes away perfectly satisfied with their bargains. The highest style of the art is reached in the beautiful Sun Pearls and Photographs

SAN FRANCISCO ASSAYING

AND

REFINING WORKS,

No. 416 Montgomery Street,

(Successors to Kellogg, Hewston & Company.)

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT	CHAS H McLANE,
WM C RALSTON,	A HAYWARD,
LOUIS A. CARNETT	

LOUIS A CARNETT ..... President and Manager
JOHN HEWSTON JR. Chemist and Superintendent

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the mining and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS

One-eighth of one per cent (heretofore a quarter) for all amounts over $1 600, and two dollars for any smaller sum Returns made in twenty four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS,

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent, for all amounts over that sum, and one per cent on the silver contained Returns made in twenty four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 300 parts gold, 2 cents per ounce

On bullion from 300½@600 parts gold, 4 cents per ounce

On bullion from 600½@750 parts gold, 6 cents per ounce

On bullion from 750½@940½ parts gold, 8 cents per ounce

Above 950 the only charge will be for coinage But there will be no charge for refining less than two dollars

FOR COINING GOLD

This charge will be the same as at the Mint—half of one per cent.—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us

RETURNS IN COIN IN FORTY-EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express

CHARGES AT U S BRANCH MINT

For the convenience of those not familiar with the terms of the Mint we subjoin the tariff of charges now in force at that institution

For refining bullion under 300 parts gold, 3 cents per ounce

For refining bullion from 300½@600 parts gold 5 cents per ounce

For refining bullion from 600½@750 parts gold, 7 cents per ounce

For refining bullion from 750½@850 parts gold 11 cents per ounce

For refining bullion from 850½@940½ parts gold, 14 cents per ounce

The charge for coinage is half of one per cent , and the charge for making fine silver bars, the same

Comparing the net value of deposits for coinage with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent —they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:

850 par to equal Mint return at refining charge of 14 cents

845 par to equal Mint return, at refining charge of 14 cents

865 par to equal San Francisco A & R W orks return, at refining charge of 8 cents ja31d2p3m

The "49-Creek" Mines.—Mr. Jos. Oppenheimer of this city, permits us to publish the following extracts from a couple of letters just received by him. The first is from D. H. Ferguson & Co., Colville, under date April 12th:

"We are still in daily receipt of flattering reports from the gold fields of '49-creek. Enclosed you will find a copy of a letter from Mr. J. Jane, custom-house officer at Ft. Shepherd. He is very sanguine in regard to the riches of the new Eldorado. There was a report, yesterday, that a new parties commenced building on the creek bank and while digging a cellar, washed a pan of dirt and found $4,00, but we cannot vouch for the correctness of the report; but it is a decided fact that there are very rich bench diggings, and that it is bound to be a large mining camp. One report confirms another. There are now one hundred men gone up from here and others are leaving daily. It only takes five days from here to the [illegible] in small boats. The weather is like summer and the snow about gone."

The following is that portion of Mr Jane's letter referred to in the above extract, and for the correctness of which Messrs. Ferguson & Co. vouch:

"I just send you a few lines to say that '49-creek is likely to turn out well; at least, that is the opinion of all the men who have gone up. They get flattering prospects [illegible] yesterday, got $10 that two men took out of one prospect hole one piece weighing $3,02. The discovery company will be at work in a few days The ground is [illegible] thing is much frozen and snow still deep. The Indians found the body of James King who was drowned in Kootenai last fall, and buried him on the bank of the Columbia river. Pray impress upon the minds of the miners that they must bring money to pay for their duties. I cannot trust; it is [illegible] my orders."

Fun in Life.—A youngish man with a feminine in- [illegible] who was probably his wife, arrived from some up-river rural district, by the *Alert* yesterday, and [illegible] fell among a host of friends—or, at least, they must have seemed so to him and her. They im- [illegible] received about a dozen pressing invitations to go home with about a dozen nice-looking young men, each of whom assured the new comers that *his* house was a little the slickest place in Portland to stop at. The rural youngish man and his rural wife, accepted an in- [illegible] The rural wife got into the nice-looking man's "coach" which wasn't a coach at all, but an express wagon. About eleven nice-looking men, immediately became jealous and began to warn the youngish rural man to "look out for the nice-looking man without a coach," averring that he would make rural man pay dearly for his ride. The rural wife of the rural youngish man got out of the "coach" express wagon. She had no taste for paying dearly. About a dozen nice-looking runners renewed their invitations to the rural couple with a vehemence and earnestness which left no doubt of their sincerity. Rural youngish man accepted another invitation Eleven several warnings were repeated More or less doubt in the minds of rural youngish man and his wife Nice looking [illegible] press their hospitable offers. Rural youngish man is plucked this way, pulled that, shoved hither, [illegible] thither, winked at with one eye, blinked at with pairs of eyes, signalled to go ahead, warned to stop, advised to look at this card and then on that. Perplexed, worried, baited, dazed, deafened, bedevilled, and generally obfuscated, rural youngish man finally resigned himself and rural wife to the situation, and the pair, by dint of muscle and the gift of gab, were gently lured into an express wagon whose happy driver hastened away from the scene of their first encounter with metropolitan hotel-ry.

A Social Call.—Mr. J. H. Upton, the editor of the Lafayette *Courier*, called on us an evening or two since. He seems to have faith in the ultimate success of his mis- [illegible] the propagation of Democracy—and since the triumph in Connecticut, he is encouraged to think that the [illegible] for "pay dirt" are better than for the past few [illegible] His head may be level enough on other matters, but in that, Upton is probably deluded

That's What's the Matter.—A good many people in the lower part of the city were probably surprised at the sudden [illegible] of water to flow through their pipes, [illegible] afternoon. The cause of the stoppage was that Mr. Myers had the flow cut off at Morrison street for the [illegible] of putting down a fire hydrant on North Second street. The work was finished near midnight, and the water is again running

Promotion.—We are pleased to learn that Col E. B Babbitt, chief Quartermaster of the Department of the [illegible] this, has been breveted a Brigadier General in the Regular army, to date from March, 1865 Col Babbitt has been in the service for over forty years, and by faithful and meritorious services, has well earned this promotion.

Willamette Freights.—Arrived per steamer *Alert*, from Oregon City, Thursday, April 25th - 38 cases lard, [illegible] bacon; 155 bbl bbls produce, 2 boxes do., 114 boxes apples, 2 boxes butter, 19 boxes eggs, 340 qr sks flour, 15 [illegible] mdse, 2 chests, 2 rolls bedding, 1 mattress, 1 chair, 1 keg, 3 bales mdse, 1 pkge wool socks, [illegible] 1 hogs.

Recorder's Court.—The only case before the Recorder, yesterday, was that of the State vs. Henry Anderson, assault and battery upon John Haggerty. The Recorder found that the assault was justifiable, having been committed merely in putting the complaining witness out of his premises. The defendant was discharged.

Tearing Down a Gate.—A State case against Joseph Deane and Seth Seely, for tearing down and carrying off a gate belonging to Martin Stilling, was tried on Wednesday before Justice Anderson The jury failed to agree, and the case will again be tried on Saturday The parties live some distance below the city

Lodge Meeting To-Night.—The members of Hassalo Lodge, I. O. O. F., are requested to meet this evening [illegible] at 7 o'clock, as there will be a regular lodge meeting prior to the opening of the sociable and the address.

Spiritualism.—The course of lectures by Rev. Benj. Todd, on Spiritualism, closed last evening The lecturer had a full house throughout the course. We are told that a society of spiritualists has been formed and that a medium of some wonderful powers is expected to arrive here soon There is some talk—how reliable, we do not know—that Mr Todd will be induced to remain here

Pacific Coast Directory.—We are indebted to the compiler for a copy of Henry G Langley's Pacific Coast Directory—a volume of 955 pages, filled with statistics of California, Oregon, Nevada, Montana British Columbia, Utah, Idaho and Washington Territory. To all business men it is a valuable book

Mr Flanders.—This gentleman arrived in this city yesterday by the *Cascade* We understand he will leave to-morrow for Whatcom, where he and Mr Clark open the Congressional campaign, on the 30th

Rev Mr. Earle.—On account of illness, Rev Mr Earle did not preach on Wednesday evening or last evening. He is, however, convalescing and is expected to preach this evening at the Presbyterian Church

Treasure.—Wells, Fargo & Co. received yesterday afternoon $13 000 in treasure, from Lewiston

To-Sail.—The *Idaho* will sail for San Francisco, on Saturday, the 27th, at o'clock P M

PERRY DAVIS' VEGETABLE PAIN KILLER

THE GREAT FAMILY MEDICINE OF THE AGE!

Pain Killer taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses For a cough, a few drops on sugar eaten will be more effective than anything else. For sore throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with full directions for its use Dyspepsia can be and is cured every day by the use of Perry Davis' Pain Killer. This is the most wonderful and valuable medicine ever known for this disease. Its action upon the system is entirely different from any other preparation known The patient, while taking this medicine, may eat anything the appetite craves. Sold by all medicine dealers mh20dawlm

SHATTERED CONSTITUTIONS RESTORED by Helmbold's Extract Buchu.

Bronchitis or Chronic Sore Throat.—It is attended with irritation of the bronchial tubes, which convey the air we breathe into the lungs. The irritation produces sore throat, hoarseness, coughing, and sometimes spitting of matter streaked with blood If it is neglected it will extend down to the lungs, and settles into confirmed consumption Allen's Lung Balsam will be found a most valuable remedy for curing this disease, and prevent its running into the consumption For sale by dealers in family medicine generally. ja20

MANHOOD AND YOUTHFUL VIGOR are regained by Helmbold's Extract Buchu.

G. VENARD.
CHARTRES COFFEE!

Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

PIONEER WASHER.

JAMES BRUSIE,
AGENT FOR OREGON AND WASHINGTON TERRITORY.

THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public It is unrivalled for its simplicity, durability and the rapidity and ease of its action Washing the dirtiest clothes perfectly clean in from five to ten minutes, with but slight labor, and lasting, with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing. It is easily worked by one person.

This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable adjunct to old housekeepers and families and washing men and washing women.

It has been extensively introduced throughout the State of California, and receives the universal commendation of all who have used it.

The undersigned is now in the city of Portland, where he can be seen at Messrs Knapp, Burrell & Co.'s, corner of Front and Alder Sts, East side, Portland, and is prepared to furnish the Machine to purchasers, and also to sell and dispose of County Rights for the sale of the same.

OUR NEW YORK LETTER.

[FROM A CORRESPONDENT OF THE OREGONIAN.]

NEW YORK, March 21, 1867.

The question of extending the elective franchise, irrespective of sex;—woman's right to vote—is one which is still uppermost in the minds of a large class of the people, although the stream of public opinion is not so boisterous, it is not second to that other great question of *reconstruction*. It is no longer confined to the class called "strong-minded women," but there are champions arising in all districts, in all classes of the community, in all State Legislatures, and in the National Congress. Miss Lucy Stone in a recent argument before the New Jersey Legislature, *puts the best foot forward* in this wise.

We ask you to submit to the people of New Jersey an amendment to her Constitution, striking out the words "white male" thus enfranchising the women as well as colored men who jointly constitute a majority of the "citizens of the State." New Jersey in her Constitution affirms that "all political power is inherent in the *people*. Government is instituted for the protection and benefit of the *people* and they have the right at all times to alter, or reform the same whenever the public good require it." Gentlemen will see it is no new claim the ladies are making. They only ask for the practical application of admitted self-evident truths. If all political power is inherent in the *people*, then why have women who are more than half the entire population of the State, no political existence?

In Holland women who are property-holders vote. In Sweden they do the same. But we have an example nearer home. In New Jersey women and negroes voted from 1776 to 1807, a period of 31 years.

* * * * * * *

ANNIVERSARY MONTH.

The month of May in New York has become an historical season, known as the "anniversary month," when all the religious, benevolent, eleemosynary, moral and social-reform associations of the land hold their annual convocations or anniversaries; Lucretia Mott, the venerable Presidentess of the American Equal Rights Association, with Susan B. Anthony, Corresponding Secretary, and H. B. Blackwell, Recording Secretary, are the first in the field this spring, with the announcement of their anniversary to be celebrated at Dr. Cheever's Church of the Puritans, May 9th and 10th. The object of the association says the call is "to secure equal rights to all American citizens, especially the right of suffrage, irrespective of race, color or sex. The black man is but half emancipated, while still more deplorable is the condition of the black woman, and legally, that of the white woman is no better."

It is announced that a new women's paper is shortly to be established in New York; the editorial staff to have such able and worthy writers as Mrs. Ann S. Stephens, Mrs Parton, (Fanny Fern) Mrs. Croly and Mrs. Terhune; that Anna Dickinson will attend to foreign correspondence, and Olive Logan, (the actress and author of many fine plays) will be dramatic critic.

SOUTHERN DESTITUTION.

The mournful stories of destitution, sickness, suffering and starvation which comes up from the Southern States, is arousing a wide-spread spirit of philanthropy and substantial aid almost equal to that which pervaded the North during the rebellion for our sick and wounded soldiers, and which so nobly manifested itself in the work of the Sanitary and Christian Commissions. Public meetings have been held in all our large cities; the smallest towns have taken up the work, and hundreds of thousands of dollars in food, clothing, medicines, family stores and farm supplies are being sent rapidly to all the Southern cities for distribution to those quarters where the greatest destitution and suffering prevails. Congress is discussing a proposition to appropriate a million of dollars for the work. Thus the North are displaying one feature of that spirit which still pervades the great heart of the nation, in spite of war, of rebellion, of faction and of party rancor. The Southern people themselves are rapidly coming to the conclusion that "the Union is better than dissolution," that "revolutions never go backward," and that there is no use in opposing "the inexorable logic of events."

The New Orleans *Crescent* of March 4th says: "Several Washington ladies are vigorously engaged making up clothes of baby dimensions for Mrs. Jefferson Davis, who for some time has been living at Fortress Monroe with her husband."

FOR LADY READERS.

As faithful chroniclers of all things, both small and great that are *stirring about*, it becomes our delicate duty to record an item for the benefit exclusively of the lady readers of the OREGONIAN; something lively about tresses, curls, wigs, water-falls, chignons and such like adornments of female head gear. All gentlemen readers will please have the good sense to skip over this paragraph, as it pertains to matters which is none of their business. First, we must promise some particulars about the trade of human hair. There are in New York four or five houses that make the importing of this article their sole business. The hair is procured from Russia, from French and German markets, and some other places in Europe where [illegible] the article is made a specialty. The amount of human hair annually imported to this country is valued at from half a million to a million of dollars, upon which a duty of forty per cent. is also paid. German hair is considered by experts as the best general variety, though from certain provinces in France, some very long and fine lots of the best description are procured. In these countries, traders in hair are as numerous as speculators in wool in our own country; peasant girls and maidens annually visit the village markets to bargain their tresses, and the value of the hair crop is subject to as much fluctuation as that of the wool crop.

The price of hair varies in New York from three to one hundred dollars per pound, and in the case of fine gray or white hair, as much as one hundred and fifty or two hundred dollars is not considered exorbitant. Manufactured into plaits, braids, ringlets, tresses, curls, waterfalls or *chignons* it has a ready sale, and the demand has been greater than the supply. The five dollars a pound hair—the cheapest in the market—is, of course, neither of fine texture nor delicate hue. One of the principal requirements in hair to make it valuable, is length; and the task of sorting various lengths is one of tedious difficulty.

A few months ago it was demonstrated by the microscope and science, that the *potato rot* was owing to the presence of myriads of infinitessimal *animalculæ*, so small that a score of them can dance on the point of a cambric needle. Only the other day our nerves were slightly jarred by the intelligence that *trichinæ* by trillions infested the muscles of our pigs, and from the pork we ate, communicated to the bodies of human beings, and were playing the very dickens with physical development. The particulars of another horror have just been borne across the bosom of the Atlantic, and now the bird of ill omen is picking at the waterfalls or chignons of the ladies. A Prussian professor, a correspondent of the London *Lancet*, has discovered that about three quarters of all the hair used for these adornments in Russia, is infested with a parasite, to which he has given the name of *gregarine*. The London *Telegraph* says that chignons are made from hair gathered from filthy peasants and even from corpses, and are full of vermin's eggs, which become hatched by the heat of the ball room, and are swallowed wholesale by the dancers.

"Pretty 'tis, to amber to observe the forms,
Of hairs, or straws, or grubs, or worms!
The things, we know, are neither rich nor rare,
But wonder how the deuce they got there."

These parasites are invisible to the naked eye, but close inspection with a powerful microscope has revealed them in the shape of little brown dots, or "epizoa," on the extremity of each hair. The gregarines are not easily destroyed, resist the effects of washing and drying, and even of boiling. Acids, alkalies, ether and other agents would kill them, but these would be injurious to the hair, and cannot be used. The Professor states that he "discovered from a chignon purchased at a fashionable hairdresser's as near as he could estimate, about a thousand epizoa on half an inch of hairs, and proceeded to develop them by warmth. Some of those hairs were bound around the neck of a hen, and in six hours, under the influence of the fowl's natural warmth of skin; a most extraordinary change in the ova appeared to have taken place. The hairs were swarming with the released gregarions, presenting many of the unmistakable peculiarities of the *pediculus cumanie capitis*." That last is Latin for a little insect not proper to mention to ears polite, but may be liberally translated—*grandmother—urchin—fine tooth comb*. The professor further says: "I regard these experiments as fully demonstrating the fact that *many ladies are wearing, perfectly unsuspected, upon their heads the germs of an insect life which may at any moment spring into vitality that would prove distressing beyond measure, and be by no means easy to eradicate—these horrible insects multiplying with almost inconceivable rapidity, and their generation being governed by no well-ascertained law.*"

These statements have in England raised a perfect howl among the skeptical, and started a host of inquiring microscopists at work, poking their noses into the ladies' waterfalls.

The votaries of fashion in New York, are shocked to believe that those glossy hypocrisies upon the back of their heads, can be nests of unmentionable animalculæ. Chignons have suddenly become unfashionable and Fifth avenue won't touch the horrid things. But there are many who still look lingeringly on the handsome coil, skeptical of its being, like an apple of the Dead Sea, *rotten at the core*.

These modern developments of science, induce us to believe there is some truth in the old bard's words, who wrote:

"That little fleas have other fleas,
And smaller fleas to bite 'em
Those smaller fleas have other fleas,
And so *ad infinitum*."

Are there not in Oregon some learned orators, devotees of science, who will take up the subject for the *Web foot gregarines?* Consider this, all ye lovely ladies who live along the fertile bottoms of the Columbia sloughs, or on the loamy banks of Long Tom, ye sweet and comely maidens who reside by the rippling waters of the Rickreal, or sojourn by the fern fields of Soap creek; and ye darling dames who toss your heads so high, and set your beauties all abroad on Front street, or who dwell upon that delta formed where the diverted waters of Santiam, flowing through Rector's ditch, down the gravelly stream of Mill creek, cheating Jeffersonians of half their summer's supply, drips its dual flood through mill and factory gates into the Willamette.

The ladies of New York will not be long in deciding to discard the chignon, or waterfall, altogether, and the *pediculi panic* threatens to work a serious injury to the trade.

In the New Orleans Museum, recently, a novel occurrence took place with a waterfall. A young lady, who during the performance enters the lion's cage, once put too much pomatum on her hair. When she stooped to let the lion jump over as usual, that sagacious beast, snuffing the bear's grease, hesitated a moment to the great alarm of the spectators, and bit off her waterfall. Ma damoiselle Louise struck the beast with her whip and recovered the lost treasure.

A GREAT HOTEL.

The grand hotel of New York, work upon which will be commenced about the 1st of May, is a feature worthy of mention. The plans are all complete, and it is to be a grand caravansary far surpassing all hotels ever before built in America, and equal to anything of the kind in Paris or London. It will cover the entire area of a whole block, at the main entrance to the beautiful Central Park, comprising 84,000 superficial feet, 420 feet in length by 201 feet in width, seven stories high, crowned with a *mansard* or French roof, and will contain 174 private parlors, 600 chambers, single and in suits, and over 200 other rooms. The whole exterior of the structure will be rich in facades, pavilions, balconies, bay-windows, turrets, high roofs, etc., etc., contrasting beautifully with the square masses of stone and marble in the Astor, the Metropolitan, the St. Nicholas and the Fifth Avenue hotels, and will be when completed, one of the finest structures in the world. A distinguishing feature of the Grand Hotel, will be the great central court or internal square, covered with a glass roof, from which alone access can be obtained to the building. This court will be entered by two noble *porte-cocheres*, each twenty-six feet wide, and from the interior verandahs and offices eight spacious stairways will lead to different parts of the house, and two steam elevating cars will lift the guests from the ground floor to the seventh story.

A guest at one of our city boarding houses, who hails from Webfoot, on being asked how he lived there, replied "that the hash was rather doubtful, but the beef was bully." The dubious indorsement will not be allowed on the *cuisine* of Le Grande Hotel.

When A. T. Stewart, some ten years ago, bought the Metropolitan Hotel, and drew his check for half a million dollars one day to pay for the property, it was said to be the largest sum for which a single bank check was ever drawn in New York. That is a small affair now-a-days, for Commodore Vanderbilt, last week, as the purchase money of a site for a new Hudson River Railroad depot, deposited his check for a $1,000,000.

CENTRALIZATION OF WEALTH.

Wealth in this country is rapidly aggregating in the hands of millionares, and there are now in this city a score of merchant princes and railroad kings, who count a fortune acquired from twenty to fifty millions each, and three individuals alone can count hard onto one hundred millions each.

"Can such things be, and overcome us like a summer's cloud
Without our special wonder!"

Mr. Bright, the English statesman, said in a recent speech that, one-half of Scotland was owned by twelve persons, and one-half of England by one hundred and fifty persons. Wealth like power has a natural gravity from the many to the few. Our fathers were content with moderate incomes, and lived comfortably on still smaller outgoes; our mothers married and managed to live well enough without a wardrobe fit for a princess, and together they contrived to keep house respectably, cosily, and to their entire satisfaction. The change that has come over the very essence of our existence is as unfortunate as it is radical. As a people we have emerged from the original simplicity that characterised the living of our forefathers, and we are on the highway of extravagance, which tends to decline socially if not politically. Look for a moment at the absolute extravagance of the times; young men of this day, especially in the fast life of New York, sniff at the idea of an income of less than $3,000 per annum, and if they don't get that sum from their employer, they make it up by "forging the old man's checks," or by "tapping the till." Young ladies turn up their noses at an outfit costing less than $1,000, and many of them run it up to $5,000. Every article of apparel from laces to gloves, from boots to parasol, from carriage to skirt elevators, from perfumery to hairpins, is rated at an exorbitant figure by the dealer, and paid for with praiseworthy serenity.

Among the items for a young lady's spring *trousseau*, recently rendered by a very fashionable milliner and dress maker, are "a robe of white and gold taffeta elegantly trimmed, and a chemisette and sleeves of Valenciennes lace $260;" a gorgeous "*robe-de-bal* of maroon and silver tulle, dotted all over with blue and silver butter-flies, $210; a satin cloak studded with fire-flies, $70; and a costume of black silk trimmed with jet ornaments, $130."

Now-a-days, a young man about to marry, courts a brown stone front, a whole dry goods store and as many thousands per year as his sweetheart is pleased to throw in; the more, the merrier is the courting. "Times ain't now as they used to was been." Some young men who are not so particular about the stocks and the Government bond charm, marry dimples; some noses; some even marry an ankle; the contest often lies between the nose and the hair; the mouth is occasionally married; the chin not so often. Young men do marry all these, and find they have got only bits and scraps of a wife, instead of the genuine article.

Young ladies also sometimes make queer matches, and marry a mustache or a pair of whiskers. But we think modern fashion has made woman "a riddle past finding out."

OREGONIANS IN NEW YORK.

Of old Oregonians now in New York, we observe in addition to those named in our last letter, Col. Mark King, Major Dan Kinney, and Captain Talcm.

B. M. DuRell, of Idaho, formerly of Oregon, has succeeded in getting from the quota assigned to Boston Banks, $55,000 of the National Currency for the First National Bank of Idaho, at Boise city.

Casually yours,

CLAIM AGAINST THE GOVERNMENT FOR $1,500,000.—Commodore Meade, brother of Major-General Meade, has a suit against the Government in the Court of Claims for $1,500,000 as administrator of his father, Richard W. Meade. It appears that the father of the Commodore resided in Spain during the French invasion under Napoleon, and entered into heavy contracts with the Spanish Government by which means Spain became largely his debtor. After the restoration of the King of Spain to the throne Mr Meade was thrown into prison, and was only released through the interposition of the Government of the United States. In 1818, Mr. Meade presented a claim against Spain for about 400,000. In 1819, the Government of the United States and Spain entered into a treaty, by which, in consideration of $500,000, the Government of the United States released the Government of Spain from any liability on claims of citizens of the United States, the latter Government undertaking to satisfy any claims of her citizens. A commission was appointed by the Government under this treaty, to which was submitted the claim of Mr. Meade, among others, but it was not allowed. Mr. Meade presented his claim until the time of his death, when the Commodore was substituted as the executor of his father. The aggregate of the claim, which amounted in 1818 to $600,000, now amounts to $1,500,000. The case has been referred to the Court of Claims merely with a view of an appeal from whatever judgment shall be rendered to the Supreme Court, the object being to obtain a decision of that Court on the question whether this claim is embraced among those provided for by the treaty of 1819.

THE TWENTY FOURTH OF FEBRUARY.—There was a man born and raised in Henry county, Kentucky, connected with whose history is a remarkable circumstance. He was married on the 24th of February, his birth-day, and on every two years thereafter, on the 24th of February, he was blessed with an heir, until three children were born to him. Strange to tell, on the next 24th of February his wife died. On February 24th, 1866, the gentleman married again.

"So you are going to keep house?" asked an inquisitive maiden of a bride.
"Yes," said she.
"Going to have a girl, I suppose."
"I really don't know," was the blushing reply, "whether it will be a girl or boy."

They gave me a stick of candy not to tell any one, but I don't think they'll mind you, you're so well acquainted with ma."

The latest Exhibition rumor is that some adventurous member of English swimming clubs have determined to swim across the channel on their way to the exhibition. They are to be accompanied by umpires in boats; and are to be furnished with planks to rest upon at stated intervals. This may be well for variety but most people would prefer to go in the usual way.

An unmitigated wretch compiles the following memoranda for young ladies: "Have a good piano or none. Be sure to have a 'dreadful cold' when asked to favor the company. Cry at a wedding, but don't faint. Always scream at a spider. Never leave your curl paper in the drawing room. Drop your handkerchief when you are going to faint. Mind you are 'engaged' if you don't like your partner. Abjure ringlets on a wet day. Never faint unless it is convenient to fall into the arms of the young gentleman you love. Remember, it's vulgar in the extreme to know what your mother is going to have for dinner. When you go a shopping, be sure to take your ma to carry the bundles."

A ROYAL BABY.—The Princess of Wales has had her third baby, a Princess born February 20th. A message was sent to the Lord Mayor of London to apprise him of the happy event, and he has ordered a new official robe, heavy with gold lace, which is to cost $450. The silver plate and other ornaments of the Mansion House are also to be renewed at a cost of over $1,000. The Princess, in less than three years, has added three members to the royal family. The guns of the Tower and Windsor Castle fired a joyful salute, and the bells welcomed the infant Princess a month before she was expected. Earl Derby has moved "an address from Parliament to Her Majesty, congratulating her Majesty on the safe delivery of the Princess of Wales.

A COSTLY WATCH.—The costliest watch that ever was made is said to have been one which was constructed in 1844 for the Sultan Abdul Medjid, who must have found it rather inconvenient, since it was five inches in diameter, and struck the hours and quarters with a sound resembling that of a powerful cathedral clock. It cost 1,200 guineas. Another famous watch was noted for its smallness. It was inserted in the pencil case, and though it was but three sixteenths of an inch in diameter, its dial not only indicated the hours, minutes and seconds, but also days of the month. It was made in Geneva, and was displayed in the exhibition of 1851.

DR. HENLEY'S
Fountain of Life

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ALso arise when a new direction is imparted to its course. These epochs proceed from discovery of new facts and of new light which changes the whole aspect of the science. The present is an epoch of this kind, and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts, it contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything, from the days of Æsculapius down to the present time, in the arcana of Medical Science, which can vie with or equal the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world. No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER. Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health. It requires an article of real merit and intrinsic value to sustain itself during the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting.

☞ DR. HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made—provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L. L. Peck, of Portland, and numbers of others, as to what a [illegible] effect it had in a short time, in cases that had [illegible] skill of physicians for years.

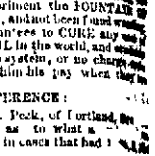
TO THE UNFORTUNATE,

NEW REMEDIES, NEW REM[illegible]

Dr. Gibbon's Dispensary,



616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering [illegible] existence from the effects of secret indulgences, or from the absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken down [illegible], disqualifying them for the happiness of [illegible] or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering any of these horrible life-destroying maladies. If they are cared for and cured [illegible] be too late, send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their ads in curing all diseases in a few days, imposing on the public by using the names of eminent physicians in Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse, solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes [illegible] producing, with unerring certainty the following host of morbid symptoms, unless [illegible] by scientific medical measures, viz: Sallow [illegible], dark spots before the eyes, pain in the head, [illegible] in the ears, noise like the rustling of leaves and [illegible] chariots, [illegible] about the loins, weakness [illegible], loss of vision, blunted intellect, loss of [illegible], diffidence in approaching strangers, a dislike [illegible], a disposition to shun society, [illegible] of memory, flushes, pimples and various eruptions about the face, furred tongue, fœted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his [illegible] scientific mode of treating this disease, which [illegible] effecting a quick and radical cure. Dr. G. [illegible] Hundred Dollars to any person who will prove [illegible]rily to him that he was cured of this complaint of the San Francisco quacks.

DOCTOR GIBBON is responsible, and will give the patient a written instrument, binding himself to a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, [illegible] medicines promptly forwarded, free from [illegible] curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in [illegible] letter or through Wells, Fargo & Co.
